What's New in the AutoCAD?

Drawing Attachments: Attach inclusions and notes to drawings. Add multiple attachments to one drawing. Receive alerts when someone else makes changes to the same drawing. (video: 1:15 min.) CAD Link: Improve interoperability between AutoCAD and other CAD tools. Enable CAD Link between drawings stored in an AutoCAD server (CAD Link on AutoCAD LT only). (video: 1:18 min.) Improved Drawing Assistance: All drawings are stored on a server that is accessible from any workstation. Simplify drawing setup with an AutoCAD server. Automatically set up local profiles. Share projects easily. Share users between drawings on an AutoCAD server. CADLink on AutoCAD LT: Download CAD Link files for other drawing tools. Receive notifications when someone else changes the same drawing. Send CAD Link messages when you change files in drawings on an AutoCAD server. Receive CAD Link files when you open drawings in other drawing tools. Predictive Measure: Work more efficiently by indicating errors as you work. Automatically align, connect, and check. You can do the calculations yourself or use the built-in features of the software. (video: 1:48 min.) Predictive Scaling: Scale drawings with dynamic preview based on your edits. Scale drawings to fit your output device. (video: 1:49 min.) Persistent Grids: Save time with a persistent grid that updates itself as you work. You can keep your layout ideas intact even as you make changes. (video: 1:46 min.) Distance Field: Recognize and follow object contours. There are different distance functions for tracing and the specification of the depth of the field. (video: 2:05 min.) Sweep: Create filled objects and line contours based on object outlines. You can start, end, and follow objects. (video: 1:46 min.) Bugs If you experience a bug in the product, make sure that the latest Service Pack or the latest Automatic Updates for your edition are installed. If not, follow the installation instructions provided by your computer administrator. The AutoCAD installation CDs, AutoCAD LT 10.0
