Shooter Suite (Latest)

Shooter Suite is a comprehensive suite that packs several utilities that can help you with post-processing media files so that you can enhance and optimize them. Straightforward setup, although it requires your attention. While the installation is a simple and straightforward process, it is worth mentioning that you need to select the tools that you want to install during this interval. Upon launch, you are welcomed by a dashboard that displays the tools installed as well as their versions, so that you can update them and hence, take advantage of the latest features. Unfortunately, you are unable to access any of the utilities from the welcome screen, but rather you need to find and access them separately. As you would expect, the aforementioned applications sport a sleek and stylish, yet user-friendly and clean interface that is unlikely to give you any troubles, regardless of your experience with similar software solutions. Packs several tools for processing and enhancing media files. The suite is comprised of four utilities specialized in post-processing audio and video files, namely Frames, Instant 4K, PluralEyes and Offload. As the name suggests, Instant 4K allows you to convert your files to high-resolution formats up to 400% faster than Instant HD. Frames and PluralEyes are two apps that can come in handy when processing footage, particularly since they enable you to synchronize the audio and video for any NLE with the touch of a button. At the same time, it permits you to deinterlace older footage, such as that from HDV or DV, for instance, and convert it to 24P employing an advanced field-blending and motion blender algorithms. Once you are done, you can create backups of the footage you shoot in the field using the Offload app. Not only does the tool work with a wide variety of cameras, but you can also make sure that you have the exact copy of the footage. A reliable suite that packs several tools for media post-processing. All things considered, Shooter Suite is a handy program that provides you with the freedom to shoot according to your preferences, while still being sure that you are able to correct and optimize your footage. Description: DIY Shooter's Busy Family Christmas Shooter's Busy Family Christmas, by KG365, is the most comprehensive clip and time-lapse app for smartphones.
