## Grand Theft Auto IV Complete Edition PC Game

is a game developed by Rockstar North and produced by Rockstar Games. The story and gameplay takes place in New York City, where the protagonist, journalist Cyrus James, rides his bike around the city to make his final reports before going to jail for illegally distributing video games, and mysteriously disappears. The game's story spans three months from the first day after Cyrus biked from his home in San Diego to travel overseas to Europe to interview Hollywood stars there. While James was driving around the city, starting from the first hour after his departure, he was constantly attacked by hooligans, whom he constantly ran into, he was practically not given any opportunity to escape at all. Only three months later, when the cyclist traveled half the west coast of the United States, he accidentally ended up in a city where no one knows him. James bought a bicycle there, and began to ride around the city in search of answers to questions: where is he going? what should he do? What happens if Cyrus fails the task? As a follow-up to the game, Rockstar released three expansion packs: "Deathmatch Grand Prix Edition" for PC; "Dead Trigger" for Xbox 360; and "Family Feud" for the GameCube. These games are official add-ons for the game, and refer to the episode "Master of Orion: The Lost Colony" from the game "Master Of Orion".
