"With the new Online Mode, I believe this title will definitely be a hit." - imei1515 "We can surely think that the game is easy because of the simple steps but I think that the novel system is a good one in handling cases where there are a lot of choices." "I believe the graphics are really good especially the environments. The characters are also very good." - mh120 "The story is really well detailed and easy to understand. Once you start playing, you will find it hard to put the game down." "The game is really fun and easy to play." - web5 "I like the idea of being connected to other players in an asynchronous way but I think there are a lot of things missing that are needed to add value to the game." -nmi786 "There are some problems on the online system. For example, when playing as Taia, you will not be able to see friend's information. Since the online play needs the client information, those that do not have it have difficulties in meeting friends for the online play." -Software Developer and Game Director DoHyoung Kim. Game development by IGS Corp. Ivan Koletskiy / Yu Kovalchuk / Ludmila Gorbatenko, Software Developers Oleg Fedoryuk / Yevhen Fedoryuk, Game Directors Vladimir Sklyar, Producer and Game Director Sergey Khalimov / Sergey Smel, 3D Artist Damir Khalili, 3D Artist Boris Dubrovsky, Game Composer and Audio Developer RPG Game Crew / IGS Corp. "...Since the first app I designed with RPG Game Crew, I've been addicted and I'm sure you will be too." "I work at IGS Game Dev because I love games and games are my passion. After starting my career as a graphic designer for over 10 years and then working as a designer for about 3 years, I began game development this year. I like to make games and I think I found what I've been looking for when I started working at IGS and with RPG Game Crew. Now I'm working on a new game for iOS and Android that will release soon." -Ivan bff6bb2d33
