What's New In?

Freeform Drawings: Create true freeform shapes to cut, bend and otherwise manipulate. Use the Bevel tool to create a shape by creating a series of lines that gradually taper together. (video: 1:15 min.) Revisions and History: Detect errors and restore revisions easily with built-in revision tracking. AutoCAD 2023 introduces a new revision tracking option that allows you to save multiple versions of your drawing, as well as show your version history. (video: 1:22 min.) View Design Package (VDP) and Vector Graph: Use the VDP to design and document your complete drawings. Draw complex shapes, create a floor plan, or build a web of complex walls and doors. (video: 1:06 min.) Note: Some features may not be available in the Personal or Student edition of AutoCAD. More features are coming soon to a software store near you! This release introduces the following features: A new On-Screen Help tool that provides access to user and AutoCAD help, as well as the online help from AutoCAD.org A new VDP tool that lets you design complex geometry right on your screen. Markup tools for review and feedback that let you send comments directly to drawings on your design surface. A revised drawing toolbar to provide easier access to tool functions and commands. More information on the new features is available in the Feature Briefing at or on the Academy's blog (Please share your thoughts on new features with us on social media using the hashtag #acad2023. Other changes in this release include the following: Layers are now saved automatically when you change your drawing's drawing view. An updated Preferences dialog includes a simplified location list for drawing templates and shared templates. A new preferences dialog lets you configure AutoCAD to work faster or use less memory when you're not working with a project. The background color for the crosshair cursor can be customized using the View crosshair color tool on the View menu. A new function for drawing Text boxes allows you to apply custom text properties (font, color, alignment, and so
